Maussollos was a Carian Satrap for 24 years. He began to build himself a mausoleum to ensure that the greatness of his power continued after his death. The construction of the mausoleum began in 355 BCE at the time of the Maussollos, and after his death in 353, his wife Artemisia continued the construction of the monument. Following her death in 351 BCE, the building was completed with the efforts of the famous sculptors of the time. The monument has survived for more than 1600 years.

Antik kent merkezinde büyük bir terasla çevrili anıt mezar yaklaşık 50 metre yüksekliğindeydi. Yüksek bir podyum, sütunlu bir galeri, basamaklı piramidal çatı ve dört atlı araba üzerinde satrap Maussollos'la karısı ve aynı zamanda kız kardeşi olan Artemisia'nın heykeli olmak üzere 4 ana bölüme sahipti. Dönemin en önemli mimar ve heykeltıraşlarınca mermer süsleme, kabartma ve heykellerle donatılmış anıtta, resmi törenler, kurban ve av sahneleri gibi Maussollos'un yaşamından kesitler ve çeşitli mitolojik sahneler belirli bir düzen içerisinde tasvir edilmiştir.
